

NORTON INTRODUCES 5800 LOW ENERGY OPERATOR HANDS FREE KIT

Norton has packaged together its 5800 Series ADAEZ Low Energy Operator and 700 Wave-to-Open Switch in one kit as a simple means for customers to create a completely touchless environment in bathrooms, operating rooms, entryways and other moderate to high traffic applications.

Packaged with the ADAEZ 5845 PRO COMPLETE, this kit offers you a full, touchless, door opening solution in one box.

The 700 Wave-Open-Switch features:

- » Reduced read range of up to 4" greatly minimizes false triggers
- » Provides audible and visual cues to activation
- » Variable hold time of 1 to 35 seconds
- » Durable stainless steel body holds up in moist environments
- » Aesthetically-pleasing design coordinates with other Norton accessories for a cohesive look
- » Available in single and double gang (every order receives one of each)
- » Pulse mode only
