

6300 OPERATOR ENHANCEMENTS

Norton Door Controls is pleased to announce multiple enhancements on the 6300 Low Energy Operators.

Enhancements include:

- » Overall unit length reduced by more than 2"
 - » Operator can be used on pairs of 36" doors
- » Backplate PCB replaced with harnesses
 - » Eliminates a step during installation
 - » Reduces total number of connectors (for installers) from 8 to 4
 - » Existing connectors are more easily accessible
- » Main PCB functionality added
 - » 585 sensor capability
- » Model for universal mounting
 - » 6340 package includes push and pull arms
 - » Closer body easily reversed push/pull
- » Change in terminology
 - » Lock Release name changed to Latch Assist
 - » NO change in functionality
- » Updated installation instructions
 - » More detailed drawings include all connector and connection points
 - » Actual size screws
 - » Standard wiring diagrams added

We will begin taking orders January 7, 2019. Lead time will be two weeks.

Updated 6300 Operator materials available on the extranet. (Collateral Materials>Norton>Product Launches). For additional information, please contact your local ASSA ABLOY Door Security Solutions sales representative.
