6000 SERIES
LOW ENERGY OPERATOR
CATALOG
INTRODUCTION

The 6000 Series low energy operator is a heavy-duty unit designed for rigorous, high-use applications. Built-in intelligence enables the operator to safeguard users while providing better door control. Simple installation and adjustment features combined with the unit’s high level of versatility allows for seamless integration with a multitude of facilities and systems.

6000 SERIES
LOW ENERGY POWER OPERATOR

FUNCTIONS
» Push and Go selector
  › As the door is manually opened, the operator "senses" movement and opens door to the full-open position
» Open/Close obstruction detection
  › Open
    › Door closes if it hits an obstruction while opening
  › Close
    › Door re-opens (once) if it hits an obstruction while closing – if the door hits the obstruction again, the door will rest against the obstruction until it is removed
» Motor startup delay adjustment
  › Delays operator opening
» Vestibule delay adjustment
» Hold open delay adjustment
» Single Pole Double Throw (SPDT) relay output
  › SPDT relay output time adjustment
  › SPDT alarm output
» Blow open for smoke ventilation
» Presence detector input
» Selector mode switch
  › Off – Disables signal inputs except blow open
  › On – Activates signal inputs
  › Infinite Hold Open - Door will hold open at set position until power is turned off

FEATURES
» Push or pull side mounting
» Non-handed
» 1.3A onboard power supply
» Activated by push button, hands-free, and RF devices
» Infinite hold open
» Maximum door size 4'0" x 8'0", 250 lbs
» Push and Go opens door to full-open position upon manual activation
» Obstruction Detection on both open and close cycle
» Operates as a mechanical surface closer when power is off
» On board electronics collect usage and cycle count data to facilitate preventative maintenance/diagnostics
» 2 year limited warranty

ELECTRICAL DATA
» Power input 120 VAC, 60 Hz (+10%, -15%)
» Current draw 0.9A
» Auxiliary output 24 VDC @ 1.3A
» SPDT relay output for controlling electric strikes or electric locks not to exceed 1 amp @ 30 VDC

CERTIFICATIONS
» ANSI/BHMA A156.19 certified
» ETL tested to UL / cUL standards for automatic doors used on fire and smoke barrier doors and CSA C22.2 No. 247 for operators and systems of doors
» UL10C listed for positive pressure fire test
» Comply with requirements for the Americans with Disabilities Act (A.D.A)
» California State Fire Marshall Listing 3266-0944:0110
» This product is manufactured in an ISO 9001 facility
ARCHITECTURAL SPECIFICATIONS

General Specifications
Door Controls (interior)(exterior) swinging door(s) shall be of rack and pinion design contained within a precision cast aluminum housing. Door closing force shall be adjustable to ensure adequate closing control. Door closing speed shall be controlled by independent hydraulic adjustment valves in the sweep and latch range of the closing cycle. Door Operator shall provide conventional door closer opening and closing forces unless the power operator motor is activated. Door Operator opening force and speed shall be adjustable in the inverter/interface module’s LCD screen to ensure adequate opening control per accessibility codes. Door Operator shall have an adjustable hydraulic back-check valve to cushion the door speed if opened violently. Door Operator shall utilize the inverter/interface module’s LCD screen and joystick to establish door closes and open positions. (Door Operator shall be AUTOMATICALLY ACTIVATED by either a slight push or pull in the direction of opening swing – Push and Go.) (Door Operator shall be SELECTIVELY ACTIVATED by external initiating device, i.e. wall switch, etc.) (Door Operator shall be both AUTOMATICALLY ACTIVATED and SELECTIVELY ACTIVATED.) Unit shall include “E-saver” feature to automatically recognize able body traffic and immediately trigger door to close after sensing no forces on door. Unit shall have delay for motor activation, electric lock interfacing, and hold open time. Units shall have SPDT relay for interfacing latch retraction exit devices or similar products and have 24VDC @ 1.3A output for connection of electric strike, lock, radio frequency receiver, etc. Units shall have Vestibule sequencing input for operation of two or more units. Unit shall have smoke ventilation inputs to power open doors when activated by fire or smoke alarm. Unit shall have a three-position Selector Mode Switch that will permit the unit to be switched “ON” to monitor for function inputs, switched to “H/O” for indefinite hold open function or switched “OFF” which will disable function inputs allowing unit to be used as a manual door closer. Unit shall be ETL tested to UL standards for automatic closing door. The Unit shall be adjustable to provide compliance with the requirements of the Americans With Disabilities Act (ADA). Unit shall be certified by BHMA to meet ANSI A117.1 and A156.19 requirements. Unit shall meet UL, cUL, UL10C and UL10B standards.

2 year limited warranty.

Additional Specifications for Functions
For Power Operator Function:
When activated, the unit shall, by means of a motor, chain and closer, power open the door at both a speed and force that are adjustable to accessibility codes. The door shall be powered from a door closed position to a full door open position and remain in momentary hold open for 5 seconds minimum (adjustable 0 to 30 seconds in 1 second increments). (Unit shall power open door to full open position up to 110°.) (Unit shall be capable of opening door manually from 110° – 180°.) Once unit reaches full hold open position, if reinitiated, unit’s momentary hold open time shall restart from the maximum set time. If unit is initiated during the closing cycle, unit shall revert to opening cycle beginning at that door position. Unit shall have a toggled hold open input that upon first initiation will power door to a maintained hold open position; a second initiation will allow door to close. Unit shall have obstruction detection on closing, which will reverse the closing door to the full open position then re-attempt to close door after momentary hold open time has elapsed. Obstruction detection on opening shall shut motor off, allowing door to close under spring force. These obstruction detection features shall be integral to unit. During closing cycle, the unit shall close door under full spring power not to exceed a closing force of 15 lbf.
SUSTAINABILITY CONTRIBUTIONS

This product has been documented to help facilities meet sustainable building certification programs, including LEED, WELL, Living Building Challenge & Net Zero Energy.

- Environmental Product Declaration
- Health Product Declaration
- Declare Label
- GreenCircle Certification
- Verified to offer 24% energy savings as compared to similar operators
6000 SERIES
LOW ENERGY POWER OPERATOR

STANDARD APPLICATIONS

6010/6050
HINGE (PULL) SIDE OF DOOR
» Buffered stop assembly in slide track

6010 RIGID ARM AND SLIDE TRACK
» 85° to 110° templated door openings in 5° increments
» 1/8" (3mm) maximum frame reveal

6050 DOUBLE EGRESS ARM AND SLIDE TRACK
» From 1/8" to 3" (3 to 76mm) frame reveal
» Specify hand when ordering

An auxiliary stop is suggested where severe conditions exist.

6020/6030
STOP (PUSH) SIDE OF DOOR
STANDARD-DUTY DOUBLE LEVER ARM
» Frame reveals 2-3/4" to 6-7/8" (70 to 175mm)
» An auxiliary door stop is required for these applications

<table>

</tr>
</tbody>
</table>

Note: Drop applications are needed if the ceiling clearance is less than 5". Specify 6020-D (minimum door width = 33" (84cm)) or 6030-D (minimum door width = 31" (79cm))

6060/6070
STOP (PUSH) SIDE OF DOOR
HEAVY-DUTY DOUBLE LEVER ARM
» Maximum frame reveals (see chart)
» 85° to 110° templated door openings in 5° increments
» Spring buffered stop in arm shoe assembly

<table>

## Accessories

### Activating Door Switches
- **501**: Stainless steel with black letters
- **502**: Blue powder coat with white letters

Specify #542 to order surface mount box for 501 or 502 switch.

- **505, 531**: 6” W. x 6” H.
- **507, 532**: 9 volt battery
- **506, 533**: 15 amp @ 125 VAC
- **534, 535**: Flush mounted
- **504**: Stainless steel with blue letters

- **507, 505, 506**: and 534 radio frequency (433MHz). Used with RF option and 539. Supplied with surface mount boxes.
- **507, 505, 506**: and 534 hard wired*. Surface mounted boxes are not supplied. If required, specify:
  - **555**: 6” square surface mount box
  - **557**: 6” round surface mount box

* Switches may also be installed with single or double gang electrical box using fasteners included.

### Vestibule Switches
- **501, 502**: 4-1/2” W. x 4-1/2” H.
- **505, 531**: 15 amp @ 125 VAC
- **507, 532**: Flush mounted
- **506, 533**: Fits single or 2 gang electrical box
- **501**: Stainless steel with black letters
- **502**: Blue powder coat with white letters

- **507**: 505, 506 and 534 hard wired*. Surface mounted boxes are not supplied. If required, specify:
  - **555**: 6” square surface mount box
  - **557**: 6” round surface mount box

### Wave-to-Open Wall Switch
- **504**: 5” W. x 4-3/4” H.
- **507, 532**: 2 – SPDT UL listed switches-mom.
- **533, 534**: 15 amp @ 125 VAC
- **506, 533**: Fits 2-gang electrical box
- **502**: Stainless steel with blue letters

- **503**: Single gang and double gang packaged together
- **531, 532, 533** and 535: Sensor requires movement for activation
- **531, 532, 533** and 535: Variable relay – hold time from 0 – 35 seconds
- **507, 505, 506**: Range 0” to 4”
- **531, 532, 533** and 535: Dimensions:
  - 3” W x 4-3/4” H (single)
  - 4-1/2” W x 4-1/2” H (double)

- **504**: 1-1/2” x 4-3/4” face plate
- **507, 505, 506**: SPDT UL listed switch-mom.
- **506, 533**: 15 amp @ 125 VAC
- **502**: Fits 1-3/4” frame
- **502**: Stainless steel with blue letters

- **503**:
6000 SERIES
LOW ENERGY POWER OPERATOR

ACCESSORIES

Motion Sensor
» 4-3/4” x 3-3/16” x 2” projection
» Unidirectional
» Black cover
» SPDT relay
» Adjustable angle pattern
» 24 VDC input
» Must not be placed where motion of door can be sensed

Switch Post
» 4” x 6” x 40” x 3/16” wall thickness
» 9 volt battery
» RF temperature range: -4°F to 122°F
» 689 (aluminum) or 690 (dark bronze) finishes; specify when ordering
» Standard formed plastic cap
» Surface mounted (above ground)
» 530 - radio frequency transmitter
» 500 - hard wired switch
» 530POST - post only; switch not included

Security Plate Package
» Conceals the ON/OFF/HOLD OPEN (ON/OFF) switch to deter tampering. Packed standard with the operator.

Presence Detector
» Diffused active infrared technology
» 11.8” x 1.9” h x 1.9” w
» Black anodized aluminum
» 9”x0” maximum mounting height
» Supply voltage: 24VAC/DC

Transmitters
» 2-3/8” w x 4-3/16” h x 15/16” d
» Single channel

» 2-3/8” w x 4-3/16” h x 15-16” d
» Two channel

Converts existing hard wired push plates to work with RF receivers offered after June 2013
» Single channel
» 9 volt

Radio Frequency Receiver
» 433 MHz

Low Profile Push Plate
» 36” x 6” activation zone
» 1” low profile depth
» Stainless steel face plate
» Adapts to either wireless or hardwired installations
» 638 - Wireless
» 639 - Hardwired

*Use of motion sensor must be approved by local authority having jurisdiction.

PRODUCT SERIES

2

FOURTH DIGIT
CLOSER POWER SIZE

0

THIRD DIGIT
IDENTIFIES TYPE OF APPLICATION

STOP (PUSH) SIDE OF DOOR
2  – Standard-Duty Double Lever Arm
110° maximum door swing
Reveals 2-3/4" to 6-7/8"
(70 to 175mm)

3#  – Standard-Duty Double Lever Arm
180° maximum door swing
Reveals 2-3/4" to 4-3/4"
(57 to 121mm)

6# – Heavy-Duty Double Lever Arm
110° maximum door swing
Reveals 4-13/16" to 7-3/8"
(122 to 187mm)

® Models will be power operated to
110° but can be manually opened to
180°
◆ Reveals less than 2-1/4" (57mm)
may be achieved by field cutting
the adjusting rod

*Consult Technical Support Department when
door is hung on offset pivots

FINISHES
Product will be sprayed with a combination of
waterborne acrylic and polyester powder coat.

SUFFIXES (OPTIONS)
RF  – Radio Frequency Control
  » Factory Wired
    » Requires 531, 532 door switch or 500 switch
post (433MHz) (Maximum codes: 100)
D  – Drop application for less than 5" minimum
ceiling clearance. Refer to page 10 for
bracket only.
