

Norton Offers a Dark Oxidized Satin Bronze Equivalent

Norton Door Controls is proud to announce the addition of a Dark Oxidized Satin Bronze equivalent (613E). This new beautiful finish provides the richness and warmth of the 613 "living" finish, but maintains its original color and appearance and will not fade or wear over time.

Durable and cost effective, this finish will be offered by Corbin Russwin, McKinney, Norton, Rixson, Rockwood, SARGENT and Yale, providing visual consistency between ASSA ABLOY Group brands.

The following closers will be available in the 613E Dark Oxidized Satin Bronze equivalent:

- 9500 Series Cast Iron
- 7500/7700 Series
- 7570/7770 Security
- 8000 Series

The current 613 Dark Oxidized Satin Bronze, Oil Rubbed finish will be available as a special order. Reference the Price Bulletin for details on the pricing structure for the 613E finish.

Please contact the factory for any questions.

Please distribute to everyone in your distributorship who specifies and/or purchases Norton door closers. Insert this announcement in the Norton section of your Door Controls full line catalog.

For additional information, contact your ASSA ABLOY Door Security Solutions sales consultant.
